

Memo

To : **All Students**

From : **Mr Mawila**

Date : **24 March 2021**

Please be advised that the College is working together with the SRC in order to resolve the matters raised by the College student population.

1. We are currently finalising the issue of appointments for the additional lecturers and they will commence with their duties by no later than Monday, 29 March 2021.
2. Textbooks have been procured and the College is constantly communicating with the suppliers. Delivery is expected soon.
3. With regards to NSFAS allowances, the College is communicating with NSFAS and a formal communication detailing the status quo will be issued by the College. It is safe to announce though that registration templates for all NSFAS funded students have been submitted to NSFAS / successfully uploaded on the NSFAS portal. Which therefore means that qualifying students who have not yet received their allowances, will do so in the coming week or so.
4. The matter of the Laptops and Data, is matter outside the jurisdiction of the College, it is handled by the Department of Higher Education and Training and NSFAS. Students will be granted feedback on this matter, upon receipt of an update.
5. The College acknowledges the inconvenience and delays, however, we would like to request for your patience as we are expediting all these outstanding matters in order for teaching and learning not to be hindered.

We would like to request for your co-operation and attend classes whilst educators are using other support measures to ensure that teaching and learning is taking place.

Kind Regards

P Mawila
Acting Principal
